

## CHAPTER VI

### CONCLUSSION AND SUGGESTION

In this chapter, the researcher would like to present the conclusion of the result of the study organized based on the research problem.

#### **A. Conclusion**

Concerning with the result of finding and discussion, the researcher concludes that most of the students love the Native English Vlog as media for E-learning to help the English pronunciation by the Native teacher. The students have positive perceptions of the personality competence of Native speaker in the media as the teacher; this means that the students accept genuine teacher as the helper in learning pronunciation so that the teacher can bring the students fullfill the optimal learning goals. The students expected that the use of Native English Vlog influenced the students' cognitive in pronouncing the words based on the correct intonation and stress. This study also revealed that the use of it leads the students be easier in reaching the purpose of learning English. This study also revealed the good teacher who is the Native speaker give beneficial for students by giving joke and the easy method to produce sounds in English.

The findings of the study decided the students strategy and experience in learning English pronunciation toward it. The most of the students love in repetiting and immitating the pronunciation by Native speaker in Native English Vlog. This study also revealed that the use of drilling technique is the most effective tool rather than the use of dictionnary and the use of marking of difficult

word in paper for helping the learning of English pronunciation. It also would make the students feel each sounds they produced. Thus, the students can know the correct sounds to used.

Finally, from the data findings, it could be concluded that students' perception in learning English pronunciation through Native English Vlog is good enough through various strategy. In same manner, The students seems get maximum of the use of English Pronunciation through it. The findings also make the reseacher states the understanding that Native speaker make the better insight in learning pronunciation for the students who learn Native English Vlog by those strategies. So, the students at 8<sup>th</sup> grade in excellent class of MTs Negeri 6 Tulungagung who are being subjects stated that they got some benefit through the strategy. The other important point of this study is this study also motivated the teacher to often teach pronunciation through online media

### **B. Suggestion**

Based on the result of research findings, the researcher would like to give suggestion for English teacher and the students;

#### **1. For teacher**

Researcher gives suggestion to teacher that the teacher should give the pronunciation lesson in the space of learning English lesson specifically by using Native English Vlog. Teacher should understand that the students also need the understanding in producing sounds as well as Native speaker especially for excellent class who would get the assignment to build communication with Native speaker. By understanding that, the teacher will be better in make the students be

interested in learning English because the learning English pronunciation help the students fulfill the purpose of the learning English.

## 2. For Students

The researcher also would like to give suggestion for the students who learn English pronunciation through Native English Vlog individually. The students must be aware in choosing the Vlog for learning. The students must understand the context of pronunciation lesson because sometimes Youtube Vlog also served the English Lesson by using the mistakes of pronunciation. Then, the students also can ask the helping from teacher in selecting the channel in learning. Besides, the students should more understand with the culture of foreign language.

## 3. For Future Researcher

Finally, the researcher suggests to the future researcher to conduct same research topic but in other different aspect. The next researcher can conduct the research by using the topic of the branches of pronunciation or other topic that related with pronunciation.
